

## **CHAPTER V**

### **CLOSING**

This chapter presents conclusion and suggestions on the basis of the research finding and discussion. The conclusions deal with the result of the research finding. Meanwhile, the suggestions are addressed to other writer and those who are interested in researching the students' perceptions toward English language development program in ma'had al jamiah of STAIN Palangka Raya.

#### **A. Conclusions**

It is concluded that students agreed with english language development program in Ma'had Al Jamiah of STAIN Palangka Raya for about 1 year. Their English have improved English after joining english language development program in Ma'had Al Jamiah of STAIN Palangka. Giving vocabulary is one of their favorite Program. However English language development program in Ma'had Al Jamiah of STAIN did not run effectively. (and 51% of freshmen said that musrif or musrifah could not be cconsistent in using English conversation. In another musrif or musrifah were not optimal to be role model of English english conversetion.

## **B. Suggestion**

Concerned with the conclusion, the writer would like to propose some the following suggestions that hopefully would be useful and valuable for the students, the English Education Study Program and the researchers.

### 1. For the students

The writer recommended the students to focus on the study, active join the program and improve their knowledge and skills to be good Muslim and provisional students.

### 2. For the management Ma'had Al Jamiah

The English development Program 2013,2014 get positive respond form students, but there are some evaluations should be evaluated,innovation such as the quantities of , students learning experiences, the facilities, system and musrif or musrifah.

### 3. For the other writers

This thesis, the writer recognized the design of study was very simple. There are still many weaknesses that could be seen. Therefore, for further research is expected that the other researchers can improve this study with the better design and different object in order to support the result finding. In short, the writer approve the other researchers can use this research as the reference for conducting their research.
