Index of difficulty is determined based on the analysis of formative test. The references used by the English teacher to make the test item are taken from the books of Get Along With English for Vocational High School and Look Ahead. It can be seen that the items number 1 to 24 are taken from the book of Get Along With English for Vocational High School Grade X Novice Level by Entin Sutinah. The item number 25 to 30 are taken from the book of Look Ahead 1 An English Course by Th. M. Sudarwati. The references are used because the material taken is connected to the material taught by the English teacher and appropriate with the syllabus.

## **B. Suggestion**

In line to the conclusions above, the writer would like to give some suggestions as follows:

1. Suggestion to the item test.

The test that is made should not give final score based on the multiple choice test in summative test, because it is not quite effective to show the real students' mastery.

2. Suggestion to the English teacher.

A teacher and educational instruments should make all tests can represent learning objectives and students' performance. In addition, the material which is taught in SMK Kesehatan Borneo Bhakti Husada Palangka Raya such as reading text, speaking, writing, listening and vocabulary should relate to health. In order that the skill acquired by the student will not diverge with the program which has been learned.

3. For the other researchers

In this study, the writer is aware that the design of study is very simple. There are still many weaknesses that could be seen. Therefore, for further research is expected that the other writers can improve this study with the better design and different object in order to support the result finding, and also the writer hopes for others researchers can analyze the quality of subjective test. In other words, the other writer can use this study as the reference for conducting their study.
