Abu Bakar HM:

We have reached a decision regarding your submission to Journal of Ethnic and Cultural Studies, "Cultural Influence on Immigrant Students' Social Wellbeing and Achievement: A Case of Indonesia".

Our decision is: Revisions Required

Please see the attached and below the reviewers comments and suggestions and revise your paper accordingly. Resubmit your revised paper no later than August 30.

Let me know if you have any questions.

Best
Hasan

Reviewer- A

Please see the attachment

Reviewer- B

- a. Please remove "Indonesia" from the title
- b. Please restructure the abstract to reflect 1) purpose, 2) focus, 3) methods, and 4) results of the study in the sequence.
- c. The context of the study is very specific and its applicability to audiences outside Indonesia appear to be quite limited. There is a lack of the most recent citation from peer-reviewed journals in the paper from (2017 to 2021) in the introduction, Literature Review, and Discussion sections. APA requires the most recent references for academic work.
- d. The introduction needs to justify and articulate the focus and questions of this study from the relevant scholarship, policy, and practice perspectives using relevant literature as support.
- e. You need to develop research questions at the end of the introduction in alignment with the study focus. Much of the literature review should be revised and incorporated into the introduction section.
- f. The theoretical/conceptual framework is entirely missing, and the author seems to use the Introduction/ literature review section as a framework. I think there needs to be a separate and strong section on the theoretical framework which forms a foundation for the study. Without the theoretical framework, the justification of methodology and method of

analysis remain vague and unclear.

g. The Discussion is much abbreviated. This section needs a description of your study aims and a brief summary of the findings as they relate to these aims, followed by a comprehensive summary of how your findings compare and contrast to those of previous researchers (including relevant citations) that I only see a few. This will give the paper greater consistency and structural coherence, leaving readers with a clear sense of the paper's aims and trajectory.

h. The conclusions drawn are not very robust. I believe more in-depth information could be gleaned from the findings presented. It is important to make sure that the claims made in the indicative introduction about what the paper will argue are revisited in the summative conclusion (preferably with some brief reference to the main points made in the body of the paper).

i. Journal of Ethnic and Cultural Studies is an international and interdisciplinary journal. What are the broader implications for the study? For instance, what would the readers from the USA or Germany, etc take away from reading your article?

j. Revise the rest of paper to ensure this conforms to the standard formatting of Journal of Ethnic and Cultural Studies authors' guideline and – refer to the 7th edition of the APA Publication Manual in this regard. Tables are not formatted in APA style. Needs be formatted in APA 7th version. The citations in the text are used authors last name and initials- Please use only last name!!!

k. A few bullet points for implications of the study would be helpful for the readers.

l. And look over references to see all in present in the text and vice versa.

m. I am afraid there are some grammatical and English errors in this paper which make it quite hard to read in places and this is sufficient to make it un-publishable in its present form. The article itself is interesting but it is a difficult read given the issues above. I suggest authors always have their work edited by a professional English editor before submissions. Find someone who is a native speaker of English to proofread your paper.
