

## CHAPTER V

### CLOSING

In this part, the researcher gave the conclusion and suggestion about the result of study. The conclusion of the study was to answer the problems of the research. The suggestions are expected to make better improvement and motivation for students, teacher and researcher related with incidental vocabulary acquisition through reading online newspapers.

#### A. Conclusion

Based on the calculation using Paired Sample T Test and mean formula the result showed:

1. There was significant effect of reading online newspapers of the third semester students of The English Education Study Program of IAIN Palangka Raya. It was shown that the result showed that  $t_{\text{value}}$  was higher than  $t_{\text{table}}$  ( $-(2.179) \leq -6.150 \geq -(3.055)$ ). It meant that reading online newspapers is effective toward the students' vocabulary acquisition incidentally of the third semester students at the English Education Study Program at IAIN Palangka Raya.
2. The students had positive attitude toward incidental vocabulary learning to acquire vocabulary. However, any some concerns about it. Because of the students respond of questionnaire based on mean score was *moderately agree to agree*. The mean score for reading English texts was 3.62-4.00 and for reading online newspapers was 3.46-4.15. Not only from the responds of

students to each items of questionnaire but also when the students followed the learning process they also gave positive attitude.

## **B. Suggestion**

According to the conclusion of the study result, the researcher would like to propose some suggestions for the students, teachers or lecturers and the future researchers as follow:

### **1. Students**

The students should read more reading material, not only non authentic material but also authentic material to improve their knowledge or ability. And they have to aware with unknown word not only focus on important information, thus, they can look up the meaning which used strategy of reading to guess it.

### **2. Teacher or Lecturers**

The researcher recommended that lecturers can be able to use reading online newspapers become additional reading material to support their material. Considering of the study result, reading online newspapers showed significant effect toward students' vocabulary acquisition incidentally by the students. However, not only online newspapers but also other resources in term of authentic reading material to make the students interest to read. Beside that, the researcher also recommended not only for reading lecturer but also for listening lecturer, because of incidental vocabulary acquisition could provided for receptive skill compered with

only vocabulary acquisition which is could used in receptive skill and productive skill.

### **3. Institution**

The researcher recommended to the Institution, especially for library to provide English newspapers. Because of the students can get the information of newspapers not only from their Bahasa but also English language.

### **4. Future Researchers**

In this study, the researcher realized that design of the study was very simple. There are still many weaknesses that could be seen. Therefore, for further researchers; it is expected that the other researchers can improve this study with better design and different object in order to support the result finding. In other word, the other researcher can use this study as the reference for conducting their research.

In addition, the researcher suggest to future researcher to make deeper analysis about students' vocabulary acquisition incidentally because in this study the researcher only describe about the frequency of students' vocabulary acquisition and about their attitudes toward learning process to acquire vocabulary.
